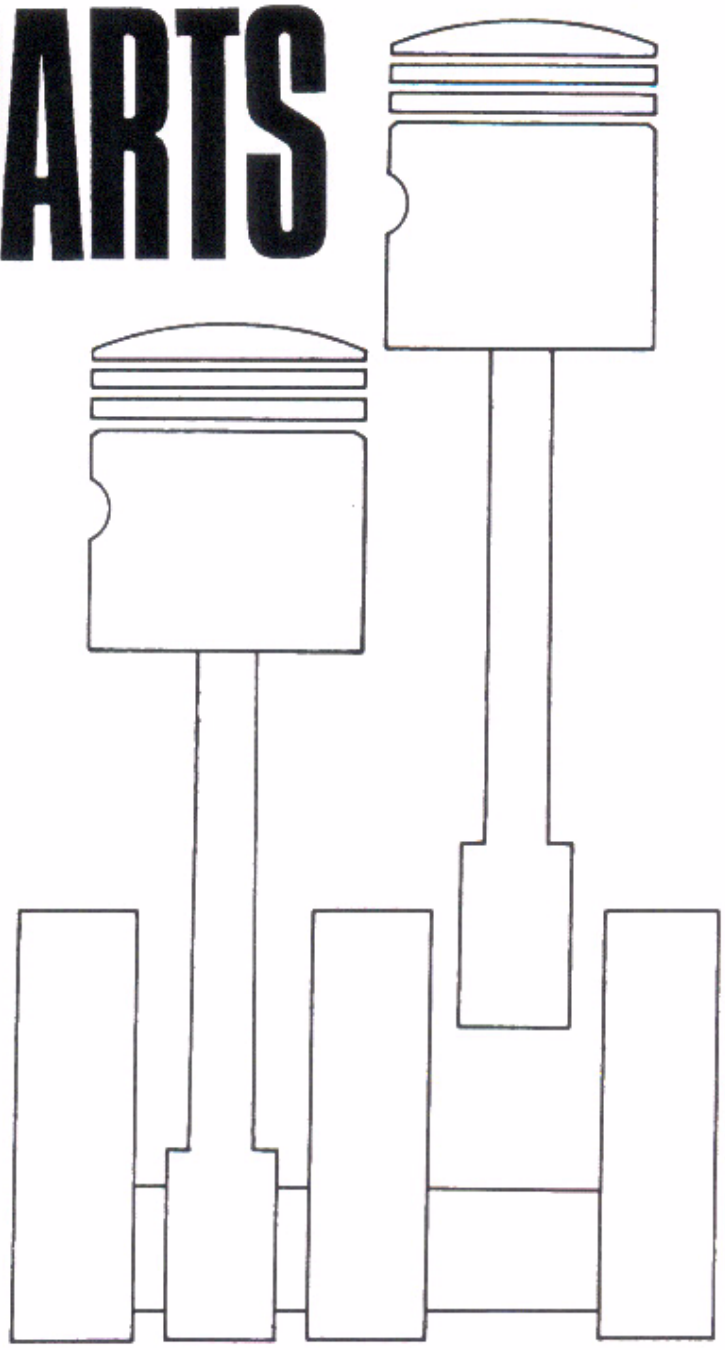
INTERIM PARTS LIST



USE OF THIS PARTS BOOK

This text is divided into two sections as a dual - aid, firstly to interchangeability and secondly to aid overseas assembly from a partially or completely knocked down state. The two sections are.

a) Pages bearing a number prefix "C" – indicating parts of the carcase – that is, the main body of the motorcycle.

b) Pages bearing a number prefix "K" – indicating kit parts, that is those feature parts necessary to complete the various models.
Each basic carcase motorcycle built is identical and it is not until the feature kits are fitted that the model gains its identity.

TO LOCATE THE PART REQUIRED

Identify from the illustration the section in which the required component appears. Having located the page, the individual component is keyed from the illustration to the text.
Note that the parts appearing in the carcase sections are identical for all models with the exception of one or two parts only which are clearly marked. In the case of kit parts, parts which apply to all models are marked to this effect.

SPECIAL NOTE

When ordering coloured parts, always quote the colour required as well as using the part number suffix. The suffix numbers **do not** indicate the colour in many instances.
